Do you have any comments you wish to make on any of the above items?			Point 8 I would like more information about the business rates review. I am not sure that this is an appropriate time to undertake such an exercise. Point 7 I have voted for this because of the urgent need to enable the Clerk and assistants to work remotely, but find it sad that the company is charging a premium for laptops, clearly someone is profiteering.	Re the C in the park payment, the C in the no park committee will be meeting via zoom this Sunday - it is unlikely the event will be going ahead.
